PURE-STAT

BASEBALL

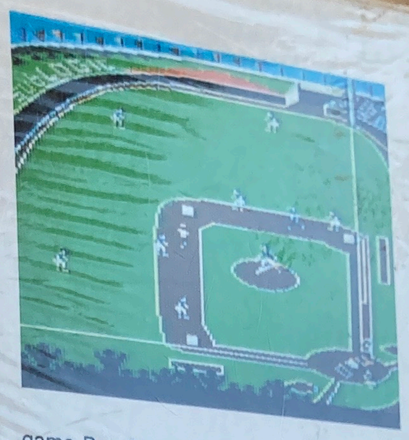
for One or Two players

- **64k memory required**
- **Joystick optional**
- **Color monitor recommended**

Pure-Stat Baseball is the ultimate sports simulation program. Select the team you'd like to manage, then pick the team you want to play against. Every team from the 1985 season is accurately represented, along with eight classic teams from the past. You can trade team players, draft new players, create your own teams, even form your own league.

This complete statistical baseball simulation considers each player's batting statistics against both left-handed and right-handed pitchers, and pitcher's stats vs. both left- and right-handed batters. Every player's fielding and base-running abilities are taken into account. Pure-State Baseball keeps track of your team's season statistics and individual player year-to-date stats. All player stats and



game Box Scores can be displayed on the screen or printed out for your records.

Pure-Stat Baseball's highly-detailed animated graphics give you a perfect view of the playing field. Each player acts and moves individually on every play. Three different stadiums are included with the program. And with an optional Stadium Disk, you can play in any Major League stadium.

IMPORTANT NOTICE
Due to disk space limitations, the three stadiums provided with
the game disk had to be loaded on the reverse side of the disk.
If you want to play in SubLOGIC Stadium, Yankee Stadium or
Dodger Stadium, when prompted to
"Enter Stadium Disk
Then Press [Return]"
first remove your game disk from the disk drive, turn it over
and reinsert it in the drive, and then press return. This
modifies the instructions on page 10 of the Instruction Manual.
Also, on the Apple IIc and IIe machines, the cap lock key must
be depressed when loading the program.
Good luck in your managerial career. We are sure you will find
challenging and exciting. As always at SubLOGIC, we
and suggestions.

IMPORTANT NOTICE

Due to disk space limitations, the three stadiums provided with the game disk had to be loaded on the reverse side of the disk. If you want to play in SubLOGIC Stadium, Yankee Stadium or Dodger Stadium, when prompted to

"Enter Stadium Disk
Then Press [Return]"

first remove your game disk from the disk drive, turn it over and reinsert it in the drive, and then press return. This modifies the instructions on page 10 of the Instruction Manual.

Also, on the Apple IIc and IIe machines, the cap lock key must be depressed when loading the program.

Good luck in your managerial career. We are sure you will find the game challenging and exciting. As always at SubLOGIC, we welcome your comments and suggestions.
